

CORE LIST OF PEDIATRICS BOOKS

Compiled by the Pediatric Library Special Interest Group of the Medical Library Association

This list was most recently updated in April 2007 by members of the Pediatric SIG. If you have comments or suggestions, feel free to contact Alison Clapp, Childrens Hospital Boston, alison.clapp@childrens.harvard.edu. The list is intended to serve as a resource for anyone unfamiliar with the core pediatric literature and obviously is just one selection tool in developing a pediatric collection. We have tried to follow many of the guidelines used in compiling the Brandon Hill List (www.brandon-hill.com/). The D indicates the book is reviewed by Doody Publishing (www.doody.com) which is a subscription book review service.
